About Us

Our Sparkling Origins

Discount Electrical Wholesalers cc was ignited into existence by the visionary Suliman Essack in April 1994. With a career spanning an impressive 49 years, Solly's journey from store man to managing giants in the South African electrical wholesale industry paved the way for a company that's not just about power, but empowerment.

Solly's Electrifying Journey

Starting from the humble role of a store man, Solly Essack's ascent saw him working as a counter salesman and eventually managing three of the largest electrical wholesale companies in South Africa. His wealth of experience in the field has been the guiding light for Discount Electrical Wholesalers.
